Dear Parent/Carer

The Caloundra Oral Health service is offering free dental examinations and general dental treatment to all eligible children at Glasshouse Country Christian College. To be eligible for free dental care the child must be aged 4 years or more. Access to services is available for students until completion of year 10.

PLEASE NOTE: Examinations and treatment will be provided at the Caloundra School Dental Clinic which is located in the grounds of the Caloundra State Primary School:-

- Caloundra School Dental Clinic
  George Street
  Caloundra

To access this offer of care, please complete and return the attached medical history/consent form to your school office as soon as possible.

Upon receipt of the completed form, Oral health staff will contact you directly for an appointment for your child. As Oral Health staff will be conducting treatment on a family basis, please ensure they are aware of each enrolled child in your family who requires a check-up. Appointments will be made before, during and after school. Please note, before and after school appointments may be limited and not always available. It is the parent/carer’s responsibility to bring their child to the Caloundra School Dental clinic for dental care.

Due to the high volume of forms returned, there may be a delay before you are contacted for an appointment.

Yours sincerely

The Dental Team
